13.3. Selection philosophy

Barefoot recognises that there may be a conflict between the selection of the team that will finish in the highest possible position in the Worlds and the need to bring credit to South African skiing through sending skiers that win medals or reach the finals. While Barefoot recognises the importance of three-event skiing, it nevertheless subscribes to the philosophy of rewarding excellence.

13.4. Performance standards

The selection committee shall keep records of medallist standards by event and category.

13.5. Rankings

Each skier's performance will be calculated as a percentage of the medallist standard for each event and for overall, based on the scoring system used in the Worlds.

The selection committee shall keep standings lists of all licensed skiers, by event and overall, reflecting the skiers' performance against the medallist standards. The ranking shall be based on the average of the skiers' best performances in three provincial, national or international tournaments over the most recent summer season. Skiers participating in tournaments overseas shall be responsible for providing their scores to the selection committee.

The selection committee shall publish the standings lists on the Federation's web site.

13.6. Basis for selection

Skiers participating in tournaments overseas shall be responsible for providing their scores to the selection committee.

13.7. Non-performance related selection criteria

Rules of the Barefoot Criterion

The selection committee may in selecting a team, by unanimous agreement, take account of the fact that a skier was unable to ski in sufficient tournaments to establish a ranking because of injury.

13.10. Team selection

First preference will be given to selecting a team of overall skiers who could potentially end up as medallists as a team.

If it is unlikely that a team could achieve the medallist standard, the selection committee must consider the selection of skiers who are potential medallists in one or more events.

The selection committee may consider the selection of skiers who are potential finalists in one or more events, based on the impact this selection will have on the team result.

Team selection, including reserves, shall be based on the standings lists.

13.11. Previously Disadvantaged Individuals ("PDIs")

PDIs who meet the prospective finalist standard shall be included in the team, subject to:

- no more than 25% of the team being selected from PDIs who are rated below skiers who are not selected; and
- the objective of maximizing the team's medal opportunities.

The selection committee must make every effort to include PDIs in the team. In the event that no PDIs meet the prospective finalist standard, a PDI who meets the tournament entry standard shall be included in the team. If no PDI meets the tournament entry
