12 REGION EAME VARIATION FROM WORLD RULES

The IWSF Region EAME Additional Rules make variations from the IWSF Technical Rules (World Rules). Unless otherwise stated in these South African Water Ski Additional Rules the variations apply to all competitions in South Africa

12.1 FALL IN JUMPING

The following guidance is given to Judges and Safety Directors. (As the suggested actions are not covered by the IWSF Rules they can only be taken at South African Water Ski competitions).

If a skier falls and states within 3 minutes that he wishes to continue, but the boat judge reports that he thinks the skier may be injured:-

- a If there is no officially appointed Doctor immediately available - the Safety Director/Event Judge should not allow the skier to jump again. See IWSF Rule 7.05.
- b If an officially appointed Doctor is immediately available - the Safety Director / Chief Judge should stop the competition for long enough for the Doctor to examine the skier and report (see IWSF Rules 7.01 and 7.02). If the delay causes problems for the completion of the competition the next competitor (s) should ski whilst the skier is being examined.

If the Doctor then reports that the skier is not injured and would have been in a fit condition to ski within 3 minutes he should be allowed to take his other jump.

If the Doctor reports that the skier would not have been in a fit condition to ski within the 3 minutes, he should not be allowed to jump again (even if, by the end of the examination he is in a fit condition to jump again).

12.2 SAFETY HELMETS

In accordance with the IWSF Rules it is mandatory at all Competitions to wear a Safety helmet in the jump event.

The helmet should have a chin strap that cannot slip around the neck yet it must be able to be undone quickly. Any water that enters the helmet must be able to get out very quickly.

12.3 HANDLE RECOIL DEVICES

For all competitions, a handle recoil device (i.e. shock tube) is mandatory for the slalom event. When a slalom switch is in use the shock tube must be fitted to cover the carabina clip. You may need to modify existing shock tubes to cover the carabina.

12.4 BOAT TIMING

When speed control is in, use the World rules apply. When automatic timing is used the judge should have a separate display available to see the times for each pass.

If manual timing has to be used - after each pass the boat timer must show the watch to the boat judge and times must be written down or passed to the shore by radio.

In the event that the boat judge is not shown the times on the watch (either hand or auto timing) the skier will receive a mandatory re-ride.

12.5 ALCOHOL

Officials are reminded that alcohol can impair performance and judgement. They should be mindful of this for the duration of a competition.

12.6 OFFICIAL PUNCTUALITY

Officials shall attend any meetings called by the Chief Judge unless specifically excused, and shall be in their positions at least 10 minutes before the start of each event.
